WHO IS M20 ASSOCIATES?

M20 Associates provides strategic, tactical, and operational solutions developed and utilized by the U.S. Department of Defense to support corporations and non-profits, as well as local governments. Globally, we help businesses identify opportunities, uncover weaknesses, manage existential threats, implement risk management solutions, conduct investigations, think strategically, and undertake proactive approaches to assist in implementing preventative measures through business intelligence.

With well over a century of operational, analytical, and systems expertise, our subject matter experts support programs and initiatives both virtually and on-the-ground across the globe. Specializing in information gathering, intelligence analysis and operations, targeted cyber and physical security solutions as well as information technology, M20 delivers the support our clients need.

WHY US?

M20 has a proven track record within the public and private sectors in providing reliable, dynamic solutions in some of the most challenging environments. Our time-tested process, methodologies and resources enable us to meet and exceed our clients' expectations.
